Education

Southern New Hampshire University

GPA: 3.89

Bachelor of Science, Computer Science

Graduated: April 2024

Relevant Coursework: Object-Oriented Programming, Software Design and Implementation, Data Structures, Algorithms, Full-Stack Web Development, Agile Methodologies, Software Development Life Cycle (SDLC), CI/CD, Cloud, Mobile Architectures, Object-Oriented-Programming, Mobile Application Development, MVC

Awards: Magna Cum Laude, Dean's List x2, President's List x4

Technical Skills

Programming Languages: Proficient in TypeScript/JavaScript, Swift, Python; familiar with C++, Java, Kotlin

Technologies & Frameworks: React Native, SwiftUI, React, Node.js/npm, Tailwind CSS, HTML, CSS, JSX

Developer Tools: Git, GitHub, Expo, Xcode, Visual Studio Code, PyCharm

Personal Projects

SkyCards | *Swift, SwiftUI*

(github.com/zheensuseyi/SkyCards-iOS)

- Created an iOS version of the classic card game Set, leading to a responsive and intuitive interface that works seamlessly across all iPhone screen sizes.
- Added smooth card animations and contextual alerts, enhancing gameplay clarity and overall user engagement.
- Applied MVVM architecture and SwiftUI best practices, making the codebase modular, reusable, and easy to test.

AceFlashCards | *React Native, TypeScript*

(github.com/zheensuseyi/AceFlashCards-ReactNative)

- Built a cross-platform flashcard maker app, enabling accessibility across any iOS or Android device
- Implemented React Hooks and Context for state management, which simplified logic handling and reduced code duplication.
- Structured the app for unit testing by isolating game logic from UI, leading to a more maintainable and scalable project.

BlackJack | *Swift, SwiftUI*

(github.com/zheensuseyi/BlackJack-iOS)

- Developed a feature-rich iOS BlackJack game with interactive betting and bankroll tracking, delivering a dynamic and strategic user experience.
- Built custom card animations and a responsive layout for both player and dealer views, improving visual flow and in-game feedback.
- Created custom extensions to extend functionality of views, eliminating code clutter.

Experience

CDC Ambassador, Value Village – Woodinville, WA

July 2024-Sep. 2024

- Maintained a clean, safe work environment and collaborated with team members to ensure efficient donation flow and less unnecessary stress for everyone
- Provided friendly customer service while supporting the receiving and processing of donations
- Inspected items to identify and separate hazardous or damaged goods whilst contributing to a happy, productive, and safe work environment

Sales Associate, Turner's Outdoorsman – Lake Forest, CA

Jan. 2021-May 2021

- Operated point-of-sale systems and delivered prompt, knowledgeable customer service
- Restocked merchandise, maintained store appearance, and worked closely with team members and leadership to support sales goals and boost overall morale.
